Zaid Rangrez

MERN Stack Developer

Portfolio: zaidrangrez.vercel.app GitHub: github.com/i-zaidrangrez LinkedIn: linkedin.com/in/zaidrangrez

Professional Summary

Aspiring software developer with hands-on experience building full-stack web applications using the MERN stack. Strong interest in JavaScript, React, backend development, databases, and software engineering fundamentals. Currently pursuing a BSc in Biology while independently developing software engineering skills through practical projects and continuous learning.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, React.js, Tailwind CSS, GSAP, Vite
Backend	Node.js, Express.js, REST APIs, JWT Authentication, bcrypt
Database	MongoDB, Mongoose, MySQL
Tools	Git, GitHub, Vercel, Postman, VS Code

Projects

BiteBase — Full-Stack Restaurant Application

Tech: React, Node.js, Express.js, MongoDB, Mongoose, JWT, Redux Toolkit, Tailwind CSS

- Built a MERN-stack restaurant application with menu and cart functionality and a responsive user interface.
- Implemented JWT-based authentication, protected routes, and backend REST APIs.
- Used MongoDB and Mongoose for persistent application data and Redux Toolkit for client-side state management.
- Deployed the frontend using Vercel and worked with Git/GitHub for version control.

INDEPENDENT SOFTWARE DEVELOPMENT

- Build practical web applications to strengthen frontend, backend, database, and deployment skills.
- Develop JavaScript and React applications while studying software engineering fundamentals and system behavior.
- Continuously improve projects through debugging, responsive design, API integration, authentication, and deployment.

EDUCATION

Bachelor of Science (BSc) — Biology

Currently pursuing
